

1

## The Call

Our client needed urgent support to clear a house in Basildon, Essex, after a hoarder tenant died in the property which was also heavily contaminated with biohazardous waste.

2

## The Challenge

We mobilised a specialist waste and cleaning team. A key challenge was the chaotic nature of the contents and hazardous waste, including faeces smeared over surfaces.

3

## Action

Following a detailed survey, SafeGroup prepared a bespoke risk assessment and method statement to clear the contents and deep clean the property so it could be relet as soon as possible.

6

## Advantages

- Fast mobilisation
- Trained and experienced teams
- Highest safety standards
- Respectful management of sensitive task
- Comprehensive service report

5

After

## Outcomes

In a 5 day operation, all biohazards were removed. Waste was taken for safe disposal. All surfaces were decontaminated. The property was left safe for the landlord to renovate and re-let.

4

Before

## Delivery

Wearing full biohazard PPE, our operatives cleared all rooms, including removing contaminated furniture and fixtures and all flooring materials, then disinfected all rooms.
